HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. E. Hoagland, we feel pleasure to inform the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO MAY 19.

Washington News in General

WASHINGTON, May 19.—Congress is now engaged on the subject of finances, having dropped railroad matters. An extra session will probably be called.

CHICAGO, May 19.—The *Tribune's* Washington special says the House fully sustained the committee yesterday on the naval appropriation bill. Sargent made a strong effort to increase the force from 6,500 to 10,000 men, but was beaten by a decided majority.

The bill amending the homestead law in the interest of soldiers which passed the House to-day provides that every private soldier who has served in the army, and every seaman, marine officer or other persons, who served in the navy or marine corps or revenue marine during the rebellion for 90 days, and remained loyal to the Government, shall without payment of any fee or commission to registers or receivers of landoffices be entitled to enter one quarter section of land, not mineral or alternately reserved sections of public lands along lines of all railroads or other public works wherever public lands have been or may be granted by acts of Congress, and to receive patents therefor under the provisions of the Homestead act on the terms and conditions therein prescribed; and all provisions of said act as here in modified shall extend and be applied to entries under this act. The bill has not yet been acted upon in the Senate.

An excursion party to California of about seventy-five persons, left here last evening.

WASHINGTON, May 19.—The reduction in taxation under the bill reported by Sherman is $43,598,144.

The President has peremptorily ordered the Military Commanders to prevent the militia and volunteers from hunting Indians.

Senator Trumbull to-day reported the evidence taken in the investigation of alleged bribery of Senators to vote against Bingham and the Georgia bill. He says money was offered, though not personally, for the votes of Carpenter and Tipton, but it does not appear that it was with the knowledge of Gov. Bullock or his friends. The Senate Committee is expected to grant a subsidy to the mail line to the coast of South America.

The Foreign Committee discussed the China Cable bill without action.

The Committee decided to bring up the North Pacific Railroad bill in a few days.

WASHINGTON, May 19.—The House Committee on Manufactures condemn the last report of the Special Commissioner of Revenue as detrimental to the interests of the country.

Congressional.

WASHINGTON, May 19.—In the House, Connor offered a resolution that the Foreign Committee be instructed to report what action is necessary to compel Mexico to fulfil treaty stipulations relative to outlaws and Indians; ignored.

A bill for the sale of buildings and grounds of certain unused arsenals in the East and South, passed.

Editorial Convention.

ST. LOUIS, May 19.—The Missouri State Editorial Association held its annual meeting at Kansas City yesterday. The attendance of members from all parts of the State, together with a number of Kansas editors, was large. The association will go on an excursion to-day to Fort Scott on the Missouri River and Galveston Rail road.

The Judicial Impeachment Charges.

CHICAGO, May 18.—The House Judiciary Committee informally looked into the papers asking impeachment of Justice Field, on the Supreme Bench, and Judge Hoffman, of the United States District Court of California. They are preferred by Wm. Hastings, of San Francisco, who has been barred from practicing before those two Judges. The charges are very voluminous and are of corruption and injustice to litigants. Some Californians say they are the out growth of a personal quarrel, but Hastings says he is ready and able to prove them. The committee does not yet indicate what they will do in the matter.

New York Judicial Election.

NEW YORK, May 19.—The latest returns leave no doubt that Chas. J. Folger is one of two Republicans elected Justices of our new Court of Appeals. The other is probably Chas. Andrews, Mayor of Syracuse, but may be Chas. Mason, of Madison county.

Mexican News.

NEW YORK, May 19.—Mexican advices to May 12th state that the followers of Pedro Martinez, about five hundred strong, recently abandoned him and surrendered to the Government. The bandit brave is still in the field with six hundred followers.

Canada News.

HALIFAX, May 19.—Dr. Tupper enters the Dominion Cabinet as Receiver General in place of Kenny, appointed Governor of Manitoba.

The Collingwood steamer *Chicora* returned last evening, being again refused permission to pass through the St. Marie canal. Gen. Cooke states that his instructions were absolute, and nothing whatever connected with the Red River expedition could pass through the canal.

TORONTO, May 19.—The *Globe* and *Telegraph* strongly favor a British canal around St. Marie and the stoppage of privileges to American vessels on Canadian waters until the question at issue is adjusted.

Election of Railroad Director.

BOSTON, May 19.—At a meeting of the Atlantic and Pacific Railroad the following Directors were chosen: F. B. Hayes, N. Crocker, Isaac Rich, Jacob Sleeper, C. J. Morrill, G. S. Curtis, Boston; Andrew Pierce, Jr., St. Louis; H. H. Coffin, New York; Oliver Ames, Mass.; Jas. Seligman, New York; Chas. E. Harwood, Philadelphia.

Press and Telegraph Matters.

CLEVELAND, May 18.—Information is received of the discovery of the principal leak through which the American News Association secured the reports of the Western and New York Associated Press, and steps will be speedily taken to stop the leak, unless this is rendered unnecessary by the conditions of the Pacific and Atlantic Telegraph Company which may render a continuance of the American Association impracticable, and which is foreshadowed by the preamble and resolutions adopted by the directors of the Pacific and Atlantic Company at its recent meeting in Pittsburg. These set forth that owing to various causes the lines of the Company have not earned enough for the past six months to justify dividends, and that no dividend be declared at present, and an increase of rates is proposed.

Miscellaneous.

PHILADELPHIA, May 19.—The General Assembly of the United Presbyterian Church is in session, Rev. Dr. Jacobs presiding.

DAYTON, O., May 19.—The formal opening of the new hospital, attached to the National Asylum for disabled volunteer soldiers, takes place this afternoon. Governor Hayes, of Ohio, Governor Baker and Gen. Schenck and other distinguished visitors, have arrived. An immense crowd has gathered.

The Cocos Island treasure hunters, who returned by the *Mary Taylor* to-day, avow themselves entirely satisfied with their experience. Cocos stock has declined below zero since their arrival.

Arrived—Steamer *Active*, from Victoria; ship *Shooting Star*, from Nanaimo.

Sailed—U. S. steamer *Mohican*, for a cruise.

Last week two boys playing in a barn near Santa Rosa, both disappeared unaccountably. One of them, James Claffey, has been traced to this city, but not arrested. Jo. W. Moore, Insurance Commissioner, has required the Oriental and Marine Insurance Co. to discontinue the issuing of any new policies, and the renewal of any previously issued, and has required the company to repay their capital within thirty days or prepare to wind up business.

TELEGRAPHIC ITEMS.

The following is a sample of the testimony in McFarland trial: Isaac G. Reid, a journalist and writer for the *Tribune* and the *Days' Doings*, was called. He had met Horace Greeley five or six times. He had an interview with him immediately after the occurrence on the 25th of November. It was published within four hours thereafter. He used in many cases his (Greeley's) exact words; always as nearly as possible. In many cases he modified the language. When Greeley used "G—d d—n," he simply put down "d—n," out of respect for Greeley.

A Chicago dispatch of May 12th, says: A Washington special gives the vote of the Senate yesterday on the paragraph in the Legislative Appropriation bill appropriating half a million of dollars for building a new State Department, the adoption of which, with the item appropriating a similar amount for the enlargement of the Capitol grounds, is regarded as a bad defeat of the Capital movers. The vote on the first proposition stood—ayes 41, noes 15; noes—Casserly, Chandler, Cragin, Harlan, Hamlin, Howell, Howard Kellogg, Morton, Pratt, Schurz, Sherman, Spencer, Sprague, Yates. Thirteen Western Senators voted in the affirmative.

New York dispatches of the 12th give the following items: The American Bible Society reports show the receipts of the past year to be nearly three-quarters of a million dollars. Measures are progressing for the more thorough supply of Bibles to the Chinese in California. Resolutions were adopted that the Bible is the fundamental and higher law of the Republic, and calling for increased zeal in its circulation both in this country and the Islands of the Pacific, etc.

Senator Revels lectured at Cooper Institute last evening, on the "Tendencies of the Age." He claimed that the course of events in this country was toward liberty of thought, and toward action, in which caste, color of skin and aristocratic blood have no part.

Havana correspondence published in the New York papers May 12th, speaking of the execution of Goicuria, says the old gentleman was not moved by the difficulties of his position, and met death with great fortitude and composure. He was given no opportunity to make an *ante mortem* address, but still managed to shout "Viva Cuba," the beating of drums preventing anything else he said being heard; he wanted to be shot, not garroted, but the Spaniards would not consent, they being bent upon his suffering the same kind of death as his old friend and companion in arms, Gen. Narciso Lopez.

The directors of the Banco de Patriot have resolved on donating $500 each to the two sailors who captured Goicuria.

A Corinne (Utah) telegram of the 12th is to the following effect: Advices from Fort Bridger, Utah, say that the Snake, Bannock, and other friendly Indians in that vicinity have forced a number of their squaws to leave the white men, with whom they have been living for a number of years; also have taken the half-breed children. This is looked upon as an indication of an intention on the part of these Indians to go out on the war path.

The Grand Army of the Republic has recently adopted a new and very appropriate as well as handsome badge. It is cast from captured cannon, and represents a five-pointed star. The center is a figure of the Goddess of Liberty, on its right a soldier and on its left a sailor, both clasping hands, in symbolism of the object of the Grand Army to perpetuate their war principles, and to protect and provide for the widows and orphans of their comrades who lost their lives in the service. Each corps' badge is illustrated on a key stone, united with its neighbors, and all massed around a central emblem, which is the national flag. This represents the devotion of the Association to the country, and its readiness to defend it whenever it may be necessary in the future as it has done in the past.

Bath, Me., is boasting of one of its shipmasters who has had four ships struck by lightning and two of them burned.

CURRENT NOTES.

A book has been published to prove that Freemason ought to be spelt "Phremason."

Six amendments to the Constitution of Missouri are to be voted upon at the general election in the fall.

The Vicksburg (Miss.) *Times* says that the people of that city refused to comply with Governor Alcorn's proclamation for a day of Thanksgiving, and that none of the churches were opened. In Jackson the day was generally observed.

The effect of the Fifteenth Amendment was forcibly shown in Holland, Michigan, at the recent municipal election in that place. The town has but two colored voters, yet they were sufficient to change its political complexion and elect the Republican ticket by a majority of one.

Mr. Lewis Sanctuary, who has canvassed a small town in Vermont, reports that of the ninety-two women over twenty-one years of age in the place, eighty-eight are decidedly opposed to having the suffrage added to their duties, and one would not express an opinion. Minority for woman's suffrage, three.

Gov. Ashley, of Montana, has published a long card in a Montana paper denying that he sought to use suborned testimony to convict Andrew Johnson, or that he had anything to do with the trial and execution of Mrs. Surratt. He closes as follows: "No man can put his finger on a single act of my life, official or unofficial, in Congress or out of it, inconsistent with my duty as a man and citizen."

The Philadelphia *Bulletin* publishes a statement that R. B. Forbes, Esq., of Boston, has charge of a movement to raise a sum for the support and education of the children of Captain Williams, who went down with the *Oneida*, sunk in the Indian seas, by Captain Eyre. He left three motherless, defenseless children, the youngest five, and the eldest twelve years of age. It is to be hoped that this movement may prove a success.

In a letter to a friend in New London, Conn., Gen. Sherman says that he is rejoiced to learn that the people of that city ratify the appointment of Mrs. Mower as postmaster, and adds, "Let them now help her in the discharge of her office and be patient until she masters it. If a country wants brave men in hours of danger, they must remember the widow left desolate and the children who need food and education. I feel the deepest interest in Gen. Mower's family, and am delighted that this office has been so well bestowed."

What are we to think of the morals of the women of Ohio? We have it on high authority that only a few days since a woman in one of the rural parts of the State came to the village store to buy some things and sell her paper rags. The clerk, in weighing the latter, found in the bag a Bible with very few leaves gone. Thinking the good woman must have made a mistake, he mentioned the circumstance. "Oh, no," replied she, "no mistake at all. My husband takes the Cincinnati *Enquirer* now, and we have no more use for the Bible."

People who supposed that the Coercion bill for Ireland was only intended for show and not for use will be undeceived by the dispatches recently published. Several districts in Ireland have already been "proclaimed," and are consequently liable to all the provisions of one of the most cruel acts passed during the present generation. In those proclaimed districts there is scarcely an arbitrary and tyrannical deed which is not henceforth possible. A man who is caught astride his own horse after dark may be arrested and shut up in prision—a newspaper may be seized—anybody may be compelled to swear against his neighbor. And the Irish Land bill, which was to heal the wrongs of centuries—where is, that? Still dragging its slow course through the House of Commons. Can Mr. Gladstone hope to preserve his fame when this is the poor result of all his "pledges?"

The production of gold from the mines in the United States was for the last two years $192,000,000, or over $90,000,000 yearly. It is a curious coincidence that as our indebtedness to Europe, comprising Government bonds and railway securities, is about $1,000,000,000, the product of mines seems to be a special fund to pay the interest on an average of six per cent. per annum on the indebtedness. The production of gold throughout the world, from the discovery of America to 1843, had steadily increased to $34,000,000 per annum, which was the production for that year in the whole region of civilization. In the year 1853, the yield was about $250,000,000, and has not been less than $200,000,000 any year since. The production of gold in the last twenty years has been double what it was for the two hundred years before, the progressive increase being due to the improvement in machinery for extracting the ore.

THE WEST.

The taxes payable in Walla Walla county, for 1870, are three mills Territorial, three mills school and five mills county—total, eleven mills. The assessment, just completed, for this county, returns value of property at $2,500,000.

On the Touchet, W. T., peaches and plums are generally killed, except in very favored localities. Apples promise a fair yield. The prospect for grains was never better, all kinds look excellent. From all parts of this and Umatilla counties the reports are the same.

How's this for high—from the White Pine *News*: "May-day came in beautifully, a trifle modest, a dash of pearly cloud over the forehead, with glintings of sunshine sprinkled over like diamonds spotting the vail of a modest woman, and in stepped beautiful May—resplendent with the rays of promise and the promise of rains—joyous, voluptuous, honest-looking, and wholesome at least in the palpable presence of herself upon us. [We are addicted of late to the plain, common place style; but you ought to have got us on this sort of subject a few years ago, when we didn't owe anything; we'll come to it again and astonish you—it is in us yet."]

From the movement and rapid concentration of troops on the Northern frontier, a general Indian war seems quite probable. Gen. Sheridan is acting on the principle that an ounce of prevention is worth a great many pounds of cure; and, like a wise man, gets ready for the outbreak as a means to prevent it. A show of military strength among savages is worth a hundred pow-wows without it. The present ability to punish is the only peace-offering they understand. They think a great deal of the great Father down at Washington, when his agents are backed by blankets and whisky, but a great deal more of the gleam of the bayonet and the saber. It is said that "honesty is the best policy," but the Indian has rarely been troubled with the application of that proverb to himself.

Carter's *Real Estate Circular* for April, contains an article on land matters which is decidedly interesting as well as instructive. From a careful perusal of the article in question, says the Oakland *Transcript*, we glean that real estate is decidedly more firm than was the case last year. The sales are fewer in number, but much better, and more steady prices are obtained. In certain localities property has risen greatly in value, and in no place on the Peninsula has it declined. Money, too, is scarcer. The plain lesson which this teaches is that mere speculation which runs up prices to fictitious sums is declining. Legitimate sales for immediate improvement are much more frequent. As it is in San Francisco, so it is everywhere. Real estate transactions here have not been very numerous of late, but those sales which were made have been to *bona fide* purchasers. Prices have rather an advance tendency. The commencement of work on the University will doubtless run up prices in the neighborhood of Berkeley. Contemplated street railroads and new bridges will cause city property to advance. Upon the whole, the outlook is decidedly encouraging.

Free Trade as a Party Issue

The New York World thinks it sees indications of an approaching struggle on the tariff question, which will result in the triumph of free trade principles

Such an opinion is also propagated by many of the lesser organs of the Democratic party It is a fact however that free trade principles could not triumph when the country was clear of debt and had to raise but a comparatively small revenue how then are they to triumph when the nation is carrying a heavy debt and must have large revenues?

Duties on imported merchandise it should hardly be necessary to state have two objects the one to raise an adequate revenue for the support of the Government the other to afford a suitable protection of certain branches of home industry against the competition and underselling of foreign countries On both of these grounds a well adjusted tariff would seem to be a wise measure of Government

That Congress has power to impose such a tariff admits of no doubt It is expressly granted in the Constitution As to the politico-ethical question, every nation has the unquestionable right to determine for itself as to what is best for its own interests This right has been recognized from time immemorial, and also exercised by the civilized nations of the earth Its exercise is not an unfriendly act toward other communities No nation is bound to open its ports to the trade of the world to the jeopardy and damage of its own interests It may wholly interdict the introduction of certain articles, or levy an import tax upon them according to the requirements of the public good Self protection is one of the primary laws of national as well as individual life and any plausible phrases about "free trade that contravene or ignore this law are simply so much rhetoric without any foundation in experience or common sense

The American people have first and last tried not a few experiments on this question modifying and changing the tariff according to the ascendancy of one party or another, and the general fact as shown by experience is that home industry and home manufactures have flourished when they have been adequately protected and languished when this has not been the fact The history of the tariff system in this country abundantly proves the truth of this proposition No party has been able to maintain itself on anything approaching a free trade basis The Democratic party has sometimes coquetted with the free traders for their support but has generally been too wise to enact tariffs not in the interest of American industry

Nothing but a tariff discriminating in favor of American industry could have carried the country safely and prosperously through the great rebellion, compensated for the waste of war and prevented a terrible crash from resulting from so great a strain on the energies of the nation Home industry under the tariffs of the last eight years, has received an impetus never before known and the people will not permit it to be broken down

There never was a time when there was so little promise of success in a free trade movement as now The wants of the national treasury will necessarily keep the tariff up to such rates as will afford incidental protection to home industry. The free traders are ringing the changes upon monopolies, class interests, high prices, and the war of capital upon labor; yet their theory, if put into practice, would work ten evils where it would cure one. Vacant factories, furnaces standing idle, the shops of manufacturing industry closed, diminished revenue to the Government, and increased internal taxation to make up the deficiency,—these would be some of the fruits Under existing circumstances and in the present state of the country, a party issue on this doctrine would be a very simple one, and would be very easily decided The free traders never had so inauspicious a time to urge their theory as now

The Game of the Seedy Politician

A large body of workingmen in San Francisco recently passed the following resolution

Resolved, That we consider it to be the true interest of every mechanic and laboring man to study and work for the interest of the capitalist instead of the politician, that we may enable the manufacturer at home to compete with the manufacturer abroad

The *Commercial Herald* of San Francisco states that still another "meeting of laboring men resolved that they had sufficient integrity, energy and ability in their own ranks to maintain the dignity and merits of their course, without employing broken down political hacks to do it for them " The same paper, in commenting on these proceedings says that workingmen in San Francisco "have woke up to the fact that they have been mercilessly managed and cozened by political tricksters for their own advancement.

These are favorable signs All the protestations of solicitude for the workingman, of which Democratic politicians and newspapers are nowadays so profuse, originate in a selfish desire for office and spoils, and when workingmen find this out and act accordingly, the occupation of many a brawling politician will be gone

The effort to make labor against capital is the whole stock in trade of the politician of small ideas, who is seeking for advancement He takes to this course naturally because it is the lowest effort of demagogism and because his capacity is more nearly equal to it than to any other effort Rational people know that labor and capital are beneficial to each other, that the capitalist cannot carry on his enterprises without labor and that the laborer cannot obtain wages without capital But it suits some people to call every man poor who labors for his subsistence, to speak of his condition as a lamentable one, and to try to make him believe that the man of capital is his natural enemy and oppressor

'Nothing says Burke can be so base and wicked as the political canting language the laboring *poor* Let compassion be shown in action, the more the better according to every man's ability, but let there be no lamentation of their condition It is no relief to their circumstances it is only an insult to their understandings It arises from a total want of thought Want of one kind was never relieved by want of another kind Patience, labor, sobriety frugality and religion should be recommended to them all the rest is downright *fraud* When working people come to learn these truths fully, and when they close their ears to the blandishments of the self-seeking politicians who are continually trying to use them for their own advantage, they will enter very soon upon more prosperous days

Saline statues is what the Charleston News calls the opponents of the party of reform

Editorial Notes

[illegible] S [illegible] Washington Territory will [illegible] in the coming week and [illegible] will deliver a speech here We understand that an effort will be made to get the Governor to make at least two speeches before his return one in German and one in English He has a reputation as a fine speaker in both languages and his [illegible] of the soundest and most thorough [illegible]

One of Grover's organs in the [illegible] to glorify its master and to defame [illegible] says that the latter slandered the people of Oregon when he [illegible] the [illegible] of unprincipled men who provoked the Indian war of 1855 and that at the time he was doing this L F Grover was wading through the snows in the Northern campaigns with his rifle upon his shoulder endeavoring to chastise Palmer's friends for their cold blooded outrages upon our own people When it is remembered that Mr Grover's valorous efforts in the northern campaigns consisted in going up to the Dalles and running for Major of the regiment for which position he was ingloriously defeated when he turned about at once and came home his sacrifices and hardships in "wading through the snows with his rifle on his shoulder will be duly appreciated by a grateful people

There is a continual attempt on the part of the chinaphobic organ of this place to inculcate the idea that all the white laborers on the railroad are soon to be discharged and Chinese employed in their room This we are authorized by Mr Holladay himself to state is entirely without foundation He has never entertained such an idea No man will be discharged from the railroad who wishes to stay, and all who apply for work will be employed in permanent situations The railroad is now in such a condition that work upon it *must* go forward and the company want all the laborers they can get The construction of the railroad is a matter independent of politics Every man who applies for work is employed without reference to his political sentiments The faith of those who are building this road is fully pledged to the men employed that their engagements shall continue as long as they want to work The Copperhead organ will harp no more on this subject after the election That it is doing so now shows how desperate are the straits to which it is reduced for political capital

It is well known that the *Oregon Herald*, by its pusillanimous course in regard to the Democratic platform, has forfeited every claim or pretense to boldness and independence, which it has heretofore put forth If it has not utterly disgraced the high profession of independent and intrepid journalism, it is because it was never recognized as belonging to that class It started out to make the eighth resolution the prominent feature of the contest, it extolled that part of the Albany platform in the most extravagant language, it had an ingenious theory about bonus which it paraded incessantly to prove that most of the debt was fraudulent and that it should not only be repudiated but that compulsory disgorgement from the bondholders should follow. But who, for a month past, has heard any of those ringing notes?' The *Herald* has been whipped into silence, it is afraid to re-affirm what it said a few weeks ago was the leading vital principle of the contest it dares not mention "bonus again, or to repeat the words, "compulsory disgorgement. Yet this silenced and muzzled press still pretends to rank as a leading, high toned public journal!

Much Ado About Nothing.

The *Herald* has an explanation of the manner in which the extract from the Gaston letter came into its possession It says

> He (Mr Gaston) sent to a friend here the extract which we have already given our readers with the direction that it should be published in case the OREGONIAN did not print his letter in full The original of that extract in Mr Gaston's own handwriting, is now in our possession

It appears, therefore that Mr Gaston did not expect us to publish this part of his letter, and that, with this idea in view, he sent it to be published in another journal The *Herald's* virtuous exclamations about this matter are therefore silly nonsense The writer of the letter expected us to exercise our right to omit this portion of it, and we did so That is all there is about it

As the *Herald* now assumes to be the champion of the writer of this letter, will it please state how long it has been since it was throwing out insinuations against him of having betrayed the interests of the west side people by joining with "Williams Holladay & Co," in getting up that "bobtail boomerang railroad bill, which the same authority has told us was designed to cripple the development of Oregon and help to tie the State down at the feet of that harbor destroying city annihilating and country throttling monopolist, Ben Holladay?

The Alleged True Route

Under this head the Sacramento *Union* speaks of a report which has been put forth by Gen Dodge late Chief Engineer of the Union Pacific Railroad. In this report he speaks of a line from Green river at the crossing of the Union Pacific to Portland and the Puget Sound as the true route to the Pacific This route is by way of Ham's Fork Granger Station on the Union Pacific), thence along the Bear Snake and Columbia rivers to Portland striking the Columbia river at the mouth of the Umatilla The entire distance from Omaha to Portland by this route, says Gen Dodge is 1 700 miles From Omaha to San Francisco in round numbers the distance is 1 900 miles showing a difference of 200 miles in favor of the Oregon terminus Gen Dodge adds that his route can never be approached in grades alignment or cost by any other route across the continent The heavy grades expensive work excessive curvature and deep snows of the Wahsatch and Sierra Nevada would be entirely avoided He speaks of [illegible] another route as superior to that of the Central Pacific R R [illegible] This leaves the Union Pacific Railroad line at King's Hill Mountain thence proceeding west along the valley of the Malheur river to Goose Lake in the north east corner of Siskiyou county entering California through Beckworth's Pass

If the Republicans had heretofore consented or would now consent to a prudent imposition of conditions upon the recipients of these land grants we [illegible] believe that there would have been and would now be no opposition to such grants from a Democratic source *Herald*

Well in the case of the [illegible] railroad grant just passed upon by Congress the [illegible] prudent imposition of conditions [illegible] Yet [illegible] the Democrats in the Senate and [illegible] the Democrats in the House voted against it Now how much is your honest [illegible] worth By its persistent reiteration of what has been proven over and over again from the record to be an untruth the *Herald* disgraces itself as a newspaper brings reproach upon the high profession of journalism and goes out to the world as a paper totally unworthy of credit

A Mississippi paper reports that Mobile is anxious to be joined to the great State of Mississippi and thinks it belongs there

The Candidates at Albany

ALBANY May 15 18[illegible]

[illegible] General Joel Palmer and Hon L F Grover accompanied by his Excellency Gov Woods addressed a large audience at the Albany Court House this afternoon

Grover made the opening speech addressing the tired and disgusted listeners for an hour upon the (to him) vital Chinese question He evidently sees in the persecution of Chinamen the last hope of the lost cause The bellowing blowing and outrageous efforts he makes to cast dust into the eyes of the people hoping thereby to lodge the main issues of the conflict until after election, are as amusing as they are futile and absurd A half hour was labored through in the vain effort to equitably adjust the 8th resolution of his creed, but his sugar coated pills don't suit Linn county's disease which is chronic Demon [illegible] a small scale and the poor fellow made sorry work of his doctrine He tried to get off a few jokes at the expense of our next Governor but they proved no better than his equitable pills and when at the end of an hour and a half he quietly subsided everybody was glad certainly nobody more so than L F Grover

Gen Palmer followed in a neat speech quietly and candidly explaining his position frankly asking for the suffrages of the people if in their judgment they deemed him worthy He is a man of *deeds* rather than *words* and certainly no sensible person could look at the two without drawing a comparison in the General's favor

Gov Woods followed for an hour with one of his masterly arguments The contrast between the harangue of the narrow minded representative of the lost cause, appealing to the prejudices of the lower classes to whom he mainly looks for votes—and the logical eloquent and convincing *facts* brought out by the Governor and addressed directly to the intelligence of a reading and reasoning community was so apparent that it was no wonder that Hon L F Grover in his closing speech, made a failure even greater than his first attempt

There will be a large Republican gain in Linn on this election The oracle hath

A cooking [illegible] which is to be heated by hot air, on a plan [illegible] by Mr Charles Dickinson of East Portland was cast recently which shows that stoves can also be made in Portland Taken all in all, [illegible] is much about the Oregon Iron Works to be proud of

ITEMS FROM THE ADVOCATE —The *Advocate*, for this morning contains the following

We shall be glad to announce in the *Advocate* and forward any moneys that may be sent to us for the purpose of helping the Oregon Children's [illegible] Society

The fourth quarterly meeting for East Portland [illegible] will be held on next Saturday and Sabbath, 28th and 29th of May Preaching by the [illegible] Elder at 2 P M Saturday All are [illegible] invited to attend

The Lutheran Church was well filled on Sabbath evening last to hear the sermon by Rev Mr Stelling on the occasion of the ordination of [illegible] C S Sprecher to the ministry The speaker ably and boldly showed that the gospel method of [illegible] was the only available plan At the [illegible] Mr Sprecher was solemnly ordained by [illegible] imposition of hands to the sacred office of the ministry

We are glad to note that the members of the Congregational Church of this city, Rev [illegible] pastor have decided to enter at [illegible] upon the erection of a new church edifice on [illegible] of Second and Jefferson streets. The cost will be about $12,000. Of this [illegible] $10 000 has already been secured by [illegible] and pledges.

[illegible] If there is no law upon the statutes of the city making it an offense punishable by fine or imprisonment for parties to set off fire crackers on the sidewalks in business hours we would recommend that such an ordinance be [illegible] at the next meeting of the Common Council Yesterday a [illegible] living on Washington street near the fish market opened his door and threw a lighted bunch of crackers out upon the walk which startled everybody and everything within hearing distance Mr Quinn's horse was standing in front of his store attached to the market wagon and his [illegible] eight years of age was sitting in the wagon seat As soon as the sound of crackers began away went the horse at full speed The danger was apparent from the start but before the horse had ran one block those that saw it thought that the child would be killed. [illegible] still ran the frightened animal men [illegible] to stop at every crossing the little [illegible] clinging tightly [illegible] the back of the seat, until the crossing of Third street was reached, where Judge Caldwell who was passing with a [illegible] with the greatest presence of mind and [illegible] determination caught the horse by the head and held him until stopped The good [illegible] was prevented [illegible] Judge Caldwell [illegible] the thanks of the community for his action in the matter

URDAY MORNING, MAY 21, 1870.

CITY.

THE OREGON IRON WORKS.—A few days since we were shown through the Oregon Iron Works of this city, by Mr. John Price, President of the institution, and were both surprised and gratified to witness there many cheering evidences of not only the prosperity of Portland, but the State of Oregon at large. The Oregon Iron Works was established originally in 1864, under the superintendence of Mr. John Nation. The establishment did a very successful business in the manufacture of quartz mills and other heavy machinery for the mining regions, during the years of the mining fever in Eastern Oregon and Idaho. Mr. Nation was succeeded by Mr. Bloomfield, as [illegible], we think in 1865. In July, 1867, the [illegible] street works being all frame buildings, were reduced to ashes one morning, and it was for some considerable time a matter of doubt as to the rebuilding of the works. After an investigation of the situation, however, and some reorganization of the organization, the present site [illegible] of the works was purchased, and additions made to the building, the old Penitentiary—until now the building, all fire proof brick, cover nearly a [illegible]. The capital stock of the [illegible] is $100,000, all paid up. The works are conducted under the following management: John Price, President; J. M. Sparrow, [illegible]; David Matthews, Superintendent; [illegible], Foreman of moulding department; Peter Taylor, Foreman of pattern shop; [illegible], Foreman of finishing department; [illegible] Campbell, Foreman of blacksmith shop, and A. Foster, in charge of the [illegible]. About fifty men besides, are constantly employed in all departments. The capacity of this foundry and shops may be estimated [illegible] of work at present [illegible]. We observed a fly wheel in the [illegible], being [illegible] for a steam saw mill [illegible], which weighs 2,300 pounds, and [illegible] that they were contracting on that [illegible] Ben Holladay & Co. for a wheel of nearly that size and proper dimensions, for a [illegible] mill at Milwaukie. The mills for [illegible] are intended each receive [illegible], and gearing to match the proportions. The engines for the saw mill [illegible] for Messrs. Holladay & Co. will [illegible] bore and 60 inches stroke. The [illegible] Company is also having a large [illegible], which weighs 2,100 lbs. The [illegible] Company, now building, procure at this foundry, among which we [illegible], 13 pilasters, and [illegible]. VISITORS.—By the *Moses Taylor* there came the [illegible] mother of Mr. S. G. Reed, the Vice [illegible] of the O. S. N. Co., on a visit to their [illegible] son, and to see Oregon. The [illegible] Commercial says the aged couple left their [illegible] on the afternoon of May [illegible] here, by way of San Francisco, [illegible] days, including a stoppage [illegible] in Omaha. Mr. Reed is 65 years of [illegible] hale, hearty old gentleman, and is [illegible] with Portland and the trip up the [illegible]. After himself and wife have seen the [illegible] beautiful river, mountain, valley and [illegible] of Oregon, during the lovely days of [illegible], no doubt not they will join in the [illegible] of all who visit here—that [illegible] especially attractive State.

[illegible] LODGE OFFICERS.—The election of officers [illegible] Grand Lodge, I. O. O. F., of Oregon, [illegible] installation, took place yesterday. The [illegible] list: Wm. Dierdorff, of Portland, [illegible]; Daniel Cram, of Idaho, R. W. D. [illegible]; C. C. Hewett, of Washington Territory, [illegible]; Chester N. Terry, of Salem, R. W. [illegible] J. B. Backensto, of [illegible]; Lewis Goodman, of Portland, [illegible] ceremonies were im[illegible].

OAKLAND R. R. BONDS.—Mr. F. Dekum, who has direct advices at frequent intervals from Frankfort, Germany, informs us that the bonds of the Oregon and California railroad were worth in that market on the 19th April 72½ cents on the dollar. This is very good for so new an enterprise. The triumph of the party which stands on a repudiation platform in our State would not be likely to help the credit of our railroad companies very much, but might set honest foreigners to thinking about the chances they were taking in dealing with such a people. Mr. Dekum also informs us that the bonds of the Central Pacific were quoted at 82½ in Frankfort on the same day. So the bonds of the Oregon railroad are not much below those of the great California company.

BOOTS AND SHOES.—It was remarked a few days since that Mr. Protzman had returned from his second trip to San Francisco this spring, but nothing was said about the stock which he had purchased. It is partly described in the new advertisement of the firm this morning, but to fully comprehend the late styles, and the low prices, one should call at the store. The stock is so full and complete that it would be out of the question to specify specially any particular line of goods offered, hence we advise an inspection in person, by all ladies and gentlemen desiring first quality at low prices.

PRESENTATION.—At the conclusion of the very able lecture last evening, at Oro Fino Theater, Rev. Mr. Myers advanced toward the gentleman bearing in his hand a splendid gold-headed cane, which he presented to Mr. Stelling, with a few very appropriate remarks. The presentation was a complete surprise, but the testimonial was very gracefully received. The cane was inscribed as follows: "To Rev. Geo. F. Stelling, Harrisburg, Pa., from the Lutheran Church of Portland, Oregon."

THE RIVER.—The Wallamet is yet receding at this point. The depth of water yesterday on the floor of the O. S. N. Co.'s lower wharf was but one foot eight inches. The same as was indicated on 7th, but thirteen inches less than on the 15th. By the dispatches, a fall of eighteen inches is reported at Dalles yesterday, and at Umatilla the river had fallen two inches.

THE RIGHT SORT.—Mr. J. B. Congle has information from an old acquaintance living in Minnesota, that twenty or twenty-five different parties, the writer included, were preparing to leave that region for Oregon this year. The party will bring with them an aggregate capital of half a million dollars. Such is the kind which Oregon is most in need of—"come along."

O. C. M. ROAD.—The stockholders of the Oregon Central Military Road Company, living in this city—Hon. J. N. Dolph, Mr. S. G. Reed, Dr. J. A. Chapman and others—leave for Eugene City to-day to attend the annual meeting on the 24th at that place. The Oregon Central Military Road Company's stock stands high in the estimation of the holders of it, now.

NEW STORE.—Mr. John Wilson has moved into his new store, on Third street. His old customers should call around and see how nicely he is fixed; also observe the stock, which is full and complete, and which will be sold *low* and at uniform rates. See advertisement.

DISCHARGED.—In Justice Court, yesterday afternoon, Levi Anderson presiding, the following: State of Oregon vs. Sallie Daugherty, charge of grand larceny. C. B. Upton, Esq., and Hon. J. H. Reed for the State; Chas. A. Ball for the defense. Defendant discharged.

THE PICNIC TO-DAY.—The hour for departing upon the picnic by the Unitarian Sunday School to-day, is set for 8:45, promptly. The steamer *Senator* will leave the foot of Morrison street at that hour. So all who intend going should be there in time.

PORTLAND LIBRARY.—The following new books have just been added to the Portland Library: The Andes and the Amazon; John Ploughman's Talk, by Spurgeon; A Tale of Eternity, and other poems; Music Hall Sermons, by Murray; The Cathedral, by Dowell.

SOMETHING NEW.—The new cancelling stamp, approved by the Commissioner of Internal Revenue, not only cancels by stamping with ink, but defaces by cutting the stamp. This is why it was approved. Messrs. Harris & Holman have received them for sale.

TIME CHANGED.—In order to make proper connections at Monticello with the mails to and from Puget Sound, the O. S. N. Co. give notice that their steamers for Monticello will, in future, leave at 6 o'clock A. M.

GEN. SALOMON.—Information has reached us from private sources, that Gen. Salomon, Governor of Washington Territory, will be here, and address the public on Wednesday evening next.

PICNIC TO-MORROW.—Perfect arrangements have been made for the entertainment of the participants at the picnic to-morrow at the East Portland Park by the German School of this city.

COMING HOME.—We are informed that Lieut. Wm. Kappus, Collector of Customs at Sitka, Alaska, will arrive in this city on a visit by Thursday of next week.

THE HOTEL STOCK.—Seven thousand dollars of the hotel stock has been subscribed. We'll take a share or so if the company will spell Wallamet as it should be.

PERSONAL.—We acknowledge a call from Mr. C. K. Harrick, of Chicago, private Secretary to Gen. Salomon, Governor of Washington Territory.

SESSION CLOSED.—The Grand Lodge I. O. O. F. closed its Fifteenth Annual Communication in this city, last evening.

TO SAIL.—The steamship *Moses Taylor* will sail for San Francisco to-day, at the hour advertised.

IDAHO.

[From the Owyhee Avalanche, May 14.]

Henry Greathouse is building a road, which will soon be completed, from Boise City to Idaho City, and also from Boise City to Kelton, via the warm springs, which it is said will be much shorter than the old routes.

The Snake River mines continue to attract considerable attention, though it is pretty well settled that no very rich strikes are likely to be made there. The gold is very fine, and has evidently come from a great distance up the stream.

All the small streams putting into Snake, Owyhee and Boise rivers and their principal tributaries have been unusually full of salmon trout this season, so much so that parties found no difficulty in catching them with their hands and with stable forks, prior to the late warm spell, which has so melted the snow as to render the streams too muddy to admit of this style of fishing.

From present appearances it is extremely probable that Camp Three Forks will be abandoned or removed at an early day. We understand that Dave Pickett, the well known Indian scout, has been engaged as guide to an expedition, whose business will be to select a new location for a military post in lieu of Camp Three Forks. The new camp will most likely be at or in the vicinity of Duck Valley, on the new stage road from Elko to Boise City.

The Protest Against Papal Infallibility.

The dogma of the infallibility of the Pope as the head of the Roman Catholic Church has received a vote of about 600 prelates of the 650 or thereabouts who are assembled in the Ecumenical Council at Rome. While the votes on infallibility have not in former Councils been quite unanimous the minority has been so insignificant as to be scarcely noticeable. But in this Council a new state of affairs is presented. The votes against the dogma count nearly a hundred, and the opposition is partially organized, having at its head some of the very ablest English and American prelates. They have promulgated the following important protest, which, from the high character of the men whose names are attached, must exert a powerful influence throughout the Catholic world:

Most Holy Father—Humbly prostrate at the feet of your Holiness, we most earnestly supplicate that the question on the definition of the infallibility of the Sovereign Pontiff as a dogma of faith may not be proposed to the Vatican Council.

Among other reasons of this supplication we beg to adduce only three, which appear to be sufficient:

First—Because the discussion of this question will evidently show a want of union, and especially unanimity among the Bishops.

Second—Because, on account of the circumstances in which we are placed in countries where heresies not only exist with impunity, but are dominant, this definition instead of attracting, would alienate those whom we seek by all Christian means to lead to the true fold of Christ.

Third—Because we anticipate endless questions will arise which may interfere with and prevent the work of our ministry and cause the fruit of this Council to be lost to those who are not members of the holy Catholic Church. Having laid bare our hearts and sincere intentions, we implore the Almighty God to avert all evil from the Church, and that He may illumine and direct you with His holy spirit.

Newspaper Statements.

HOW THE PEOPLE TEST THEIR TRUTH.

This is not an age when people believe or trust whatever they see in the public journals. Fifty or sixty years ago when the accuracy of a statement that had appeared in one of the gazettes or "News Letters" of the day, was questioned, it was considered a sufficient answer to all cavil to say, "It must be so, for I read it in the newspaper." It is not so now. Newspaper assertions must be verified before they are taken for granted, and this is especially the case as regards statements setting forth the remedial properties of Proprietary medicines. For example: It was not until the tonic and alterative properties of Hostetter's Stomach Bitters has been deliberately and thoroughly tested by thousands, and found to be in perfect accord with the printed claims put forth in its behalf, that it was accepted by the public at large as a *Standard Remedy*. But when multitudes who had resorted to it as a safeguard against malarious fevers, a cure for indigestion and biliousness, a means of strengthening the frame, cheering the spirits and imparting constitutional vigor, came forward and testified that its beneficial effects had exceeded their most sanguine expectations, *of course the world believed*. To resist such proofs was impossible. Great care had been taken from the beginning not to overstate the merits of the Bitters. Exaggeration and bombast have been the death of many preparations that might otherwise have survived. They were "weighed in the balance and found wanting." Hostetter's Bitters, on the contrary, have never been announced in grandiloquent language as a cure for every bodily ill, but simply as a pure harmless vegetable specific possessing remarkable invigorating, regulating, antibilious and antiseptic properties. This is exactly what the public know the medicine to be, and its enormous sales is an argument in its favor.

SHOO FLY!

I think I hear the bay horse cough,—
If he ain't cured 'twill take him off,
I'll buy some "H. H. H." this day
And give it to my poor old Bay.
I feel, I feel, I feel,
That's what the old horse said,
Distemper working its way through
My poor old aching head.
Chorus—Shoo! Fly, don't bother me,
Shoo! Fly, don't bother me,
Shoo! Fly, don't bother me,
I'm using "H. H. H." you'see

I feel, I feel, I feel,
I feel like the sun at noon,
The "H. H. H." you gave to me
Has cured me up so soon.
I feel, I feel, I feel,
I feel like a gay old sport,
No sprains or spavins bother me,
No wind galls I report.
Chorus—Shoo! Fly, &c.

I think I hear the Jockey say,
My fastest Horse got hurt one day—
He sprained his limbs and spavins came
And made my trotter very lame.
I feel, I feel, I feel—
That's what the trotter said—
I must have "H. H. H." this day,
For I am almost dead.
Chorus—Shoo, Fly, &c.

It cures all sprains and bruises sore,
No weakened joints we need deplore;
To colics and cramps it shuts the door—
This "H. H. H.," of Williams & Moore
I feel, I feel, I feel—
That's what the Jockey said—
A sick horse needs some "H. H. H."
And good straw for his bed.
Chorus—Shoo, Fly, &c.

FOR COLIC OR CRAMPS it is instantaneous. To two table spoonfuls of the H. H. H. add one part of water and drench the horse, and repeat in urgent cases. For man, woman or child, given in doses from 5 to 20 drachms diluted in water, will relieve colic almost instantaneously. "D. D. T."—(Druggists, do try it.)

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 695 AND 697 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE; GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his manufacture, which commands here, and in the markets of the interior, a relatively higher price, entices the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud cannot receive but a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeit. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

Each package bears the signature of G. VENARD.

FREE LOVE.

We love our patrons, both large and small,
No choice of sex—we love them all.
If it chance to be a luckless wight
No matter, so the "chink's" in sight!
If it chance to be a worthy man,
We'll trust him, on the fortnight plan;
But would prefer, if the same to him,
To sell him goods for the ready tin!

Send on your orders, send on your check;
By sending the money you're saving the nix;
No danger in sending by your children or wife—
We're all of us married and settled for life!
Our love is on the *golden* plan;
We love the lady as well as the man;
We're partial to none—American or Brittana—
The money's "what's the matter with Hannah."

Come with your bacon, butter and beans;
Come with your lettuce, cabbage and greens;
Come with your chickens, lard and honey,
We'll exchange you goods or pay you the money.
One thing bear in mind—if love's labor is lost—
We never sell goods at less than their cost;
And when reading our sign, reflect that below
Is an honorable firm, Mr. OATMAN & CO.

P. S. There's more truth than poetry in the above

WASHINGTON TERRITORY.

For Delegate to Congress:

SELUCIUS GARFIELDE

Republican Platform

Adopted by the Republican Territorial Convention at Vancouver, April 21st 1870

Resolved That the Republicans of Washington Territory are in full accord with the great Republican party of the Nation the party that maintained and carried the Government through the most powerful and gigantic rebellion known in history notwithstanding the aid and assistance rendered by enemies abroad and traitors at home the party that successfully triumphed over the arms of the rebels at the South that removed the foul blot from the national escutcheon that disgraced us in the eyes of the civilized world; that sustained our financial credit beyond the hopes of the most sanguine that has shown a magnanimity and forbearance to the vanquished that challenges the admiration of mankind, and that ever true to the best interests of the people has opened a highway for the interchange of products of the Eastern and Western portions of the continent that will long be marked as one of the wonders of the age

Resolved That we regard the administration of President Grant as eminently successful that the difficult questions which were presented by the anomalous condition of eleven States at the close of the rebellion have been settled in accordance with the soundest principles of justice and political economy, and we confidently look for a speedy, harmonious and perfect restoration of the constitutional relations between all the States and the General Government.

Resolved That the management of the finances by the Legislative and Executive branches of the Government by the present Administration, has been wise prudent and careful, and we refer with pride and pleasure to the fact that no financial convulsion [illegible] occurred, that the credit of the Government has been sustained, and that the relative value of specie and paper currency has approximated as rapidly as was consistent with the safety of our commercial and financial affairs

Resolved, That the bold and unflinching position assumed by the Administration in regard to the Alabama claims has already produced the most salutary results which are evidenced [illegible] by the [illegible] of Great Britain to reopen negotiations but by a willingness to conduct them in conformity with recognized principles of international law

Resolved, That the National and Territorial Governments should be conducted in all their branches with the most rigid economy that the needs [illegible] should [illegible] as far as practicable, be exempt from direct or indirect taxation, and that we are opposed to repudiation in any form believing that the honor of the nation is of more importance than any pecuniary consideration

Resolved That we earnestly urge upon the National Government the speedy settlement of our rights to the San Juan and other islands lying between the Canal De Haro and Rosario Straits and the acknowledgement by Great Britain of our just claims [illegible] opening negotiations for the purpose of securing the annexation of British Columbia to the United States

Resolved That the Northern Pacific Railroad and its branches is a work of national importance and we call upon the General Government for the most liberal aid and assistance to secure its early construction and completion

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL Established in 1854 [illegible] for the [illegible] Sexual and Seminal Diseases such as Gonorrhea Gleet, Stricture Syphilis in all its forms Seminal Weakness Impotency [illegible] Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering with this miserable variety of diseases from the effects of secret indulgences or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends attend to those who are suffering with any of these horrible life-destroying maladies see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities [illegible] their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of the charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms unless combated by scientific medical measures viz Sallow countenance dark spots under the eyes pain in the head, ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs [illegible] and vision, blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances a disposition to shun society loss of memory, hectic flushes pimples and various eruptions about the face, furred tongue fetid breath coughs consumption night sweats monomania and frequently insanity If relief be not obtained should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove unsatisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure, or make no charge

CURES AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case, symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use for Ten Dollars, sent in registered letter or through Wells Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates dupe the unwary Some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades Some are tinsmiths shoemakers newspaper carriers intelligence office keepers etc Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it, Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are Dr Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure
